On 10th March, 2023, Premier School Affiliated to Hou Kong Middle School arranged a group of 25 Form 6 students to experience a day of college life at Moon Chun Memorial College, University of Macau. The group began with a tour of MCM College, followed by experiential learning workshops such as “Portuguese for Beginners” and “Music and Rhythm” conducted by Dr. Manuel Noronha and Dr. Peggy Lau respectively. Shortly after, three senior college student representatives were invited to highlight their respective college experiences with the group as they interacted actively in group discussions. At the end of the morning session, Associate Master, Dr. Manuel Noronha presented certificates of participation to the group.

After lunch at College Hall, the group visited Macao Base for Primary & Secondary STEM Education, followed by a guided visit to Centre for Cognitive and Brain Sciences by Prof. Ruey-Song HUANG, and Prof. Haoyun ZHANG. The visits aroused the group’s interest in scientific research. Afterwards, the group attended a guided tour to UM Gallery. Finally, they visited the Centre for Chinese and Culture, and attended a seminar held by Dr. Neng Ian CHEANG.
